

“Putting **Wi-Fi** in schools; allowing **cordless phones** that radiate constantly to be manufactured; placing **wireless baby monitors** near an infant; using a **wireless tablet, smart phone** or **computer** while pregnant; holding a **cell phone** next to the head and keeping a cell phone in a bra or hip pocket or under a pillow; placing **cell phone antennas** near homes, schools and on hospitals; metering electricity, water and gas with **wireless smart meters** and designing **smart appliances** for the home will be viewed by future generations as **dumb technology** generated by **greed** for a population that is largely ignorant of the consequences. We need to protect the health and wellbeing of future generations, because without them there is no future! If we don't do it . . . who will?” Dr Magda Havas, PhD, Environmental and Resource Studies, Centre for Health Studies, Trent University, Canada. [www.emfscientist.org](http://www.emfscientist.org)

## Did you know?

### EMF and Diabetes 3...

*... dirty electricity raises blood glucose levels and changes insulin requirement in diabetics.* Milham, Samuel, MD, MPH, *Dirty Electricity: Electrification and the Diseases of Civilization*, iUniverse, Bloomington, Indiana, 2012, 2nd ed., p 80

In 2008, the highly qualified associate professor Dr Havas determined 'type 3' diabetes - influenced by environmental exposure to electromagnetic pollutants – **EMF**. Havas, M, Stetzer D, Dirty electricity and electrical hypersensitivity: Five case studies, World Health Organization Workshop on Electricity Hypersensitivity, Prague, Czech Republic, 2004.

*The blood glucose connection could be how dirty electricity (EMF) increases cardiovascular disease incidence. The major mortality and morbidity in diabetics is due to acceleration of cardiovascular diseases.* Milham, Samuel, MD, MPH, *Dirty Electricity: Electrification and the Diseases of Civilization*, iUniverse, Bloomington, Indiana, 2012, 2nd ed., p 80

**SUGGESTION:** Eliminate EMF as much as possible from your life
