

“Putting **Wi-Fi** in schools; allowing **cordless phones** that radiate constantly to be manufactured; placing **wireless baby monitors** near an infant; using a **wireless tablet, smart phone** or **computer** while pregnant; holding a **cell phone** next to the head and keeping a cell phone in a bra or hip pocket or under a pillow; placing **cell phone antennas** near homes, schools and on hospitals; metering electricity, water and gas with **wireless smart meters** and designing **smart appliances** for the home will be viewed by future generations as **dumb technology** generated by **greed** for a population that is largely ignorant of the consequences. We need to protect the health and wellbeing of future generations, because without them there is no future! If we don't do it . . . who will?” Dr Magda Havas, PhD, Environmental and Resource Studies, Centre for Health Studies, Trent University, Canada. [www.emfscientist.org](http://www.emfscientist.org)

## EMF

Did you know?

### WI-FI in SCHOOLS

“We’ve got an analogy of a classroom being the inside of a microwave oven.”

Dr Magda Havas, PhD, Environmental and Resource Studies, Centre for Health Studies, Trent University, Canada

**SUGGESTION:** Switch to hard-wired technology, or if not possible, limit each day

EMF PROTECTION PROJECT
