

“Putting **Wi-Fi** in schools; allowing **cordless phones** that radiate constantly to be manufactured; placing **wireless baby monitors** near an infant; using a **wireless tablet, smart phone** or **computer** while pregnant; holding a **cell phone** next to the head and keeping a cell phone in a bra or hip pocket or under a pillow; placing **cell phone antennas** near homes, schools and on hospitals; metering electricity, water and gas with **wireless smart meters** and designing **smart appliances** for the home will be viewed by future generations as **dumb technology** generated by **greed** for a population that is largely ignorant of the consequences. We need to protect the health and wellbeing of future generations, because without them there is no future! If we don't do it . . . who will?” Dr Magda Havas, PhD, Environmental and Resource Studies, Centre for Health Studies, Trent University, Canada. www.emfscientist.org

Did you know?

Wi-Fi, one antenna from a **smart meter, cordless phones** and **wireless baby monitors** operate at the same frequency as microwave ovens - **2.45 GHz**

What microwave radiation does in most simplistic terms is similar to what happens to food in microwaves, essentially cooking the brain - Neurosurgeon Keith Black, MD microwavenews.com, "*IARC: Cell Phone Radiation Is a Possible Human Carcinogen*", 3 June 2011, updated 25 November 2015, <http://tinyurl.com/7jcs4wx>

On the use of wireless baby monitors - *What parents in their right mind would knowingly expose their infant to constant microwave radiation?*

Dr Magda Havas, PhD, Environmental and Resource Studies, Centre for Health Studies, Trent University, Canada
[Havas, M, *Safe Baby Monitors*, 24 November 2015](http://magdahavas.com/safe_baby_monitors/)

Professor Konstantin Meyl, hailed as a modern-day Nikola Tesla, notes that 2.45 GHz is an important biological frequency window that Nature uses in cell communication. Meyl comments: *Only a half-knowing company would allow the sale of devices that produce sparks in Nature in the midst of perhaps the most important biological window for humanity.* [Meyl, Konstantin, *DNA and Cell Resonance*, INDEL, Villingen-Schwenningen, Germany, 2011, 2nd ed., p. 39](#)

SUGGESTION: Eliminate EMF as much as possible from your life

EMF PROTECTION PROJECT
